

An Environment Policy has been established and is communicated throughout all areas of the business.

Evans Vanodine International PLC is a manufacturer and distributor of chemical products for the professional hygiene and livestock protection industries.

Evans Vanodine is committed to managing its processes, materials and workforce in order to prevent pollution and protect the environment.

Further, the company is committed to implement measures designed to improve its environmental performance, by setting and achieving environmental objectives and targets.

It is committed to ensuring that it conducts all those activities in compliance with relevant environmental compliance obligations.

To facilitate compliance with these commitments, an Environmental Management System is in operation that conforms with the requirements of BS EN ISO 14001:2015.

The following principles are applied throughout the company:

1. Directors, Managers and Supervisors demonstrate commitment to the policy by providing support and training to its employees, to ensure that they understand the company's obligations and their role in fulfilling them. They are also encouraged to contribute to ongoing environmental improvements.
2. All employees demonstrate commitment to this policy by undergoing the necessary training and by complying with relevant procedures, to meet the company's environmental commitments.

It is the responsibility of Company Directors to ensure that the company's Environmental Policy is implemented, available to all, and subject to periodic review.
