Recommended for use in conjunction with Evans **TARGET™** and **FAM® 30** when extra biosecurity is required.

## **TARGET™** - Alkaline foam cleaner

- Heavy-duty alkaline detergent
- Produces a thick foam for extra adhesion to vertical surfaces
- Effectively removes dirt and soiling with ease
- Can be used in hot or cold water
- Suitable in all water conditions

## **FAM®30** - Iodophor disinfectant

- Powerful and fast-acting
- Can be used as a foam, providing a longer contact time
- Active in presence of organic matter
- Authorised biocide
- Bactericidal, fungicidal and virucidal
- Suitable in all water conditions
