

# Peradox™

## Acidic disinfectant

A clear, colourless disinfectant. Effective against a wide range of bacteria, viruses and fungi encountered in intensive livestock husbandry, milk production and processing.

Passes EN 1656.  
Kills bacteria within 15 seconds  
at a dilution of 1:50 at 10°C.

Passes EN 14476; effective  
against enveloped viruses,  
including Coronavirus.

- Helps to maintain the highest standards of hygiene.
- May be used at dilution rates of between 1:100 & 1:200 in cold water according to specific pathogens involved, as well as level of residual soiling encountered
- Fast acting formulation.
- Economical in use.
- Suitable in all water conditions.

#### GENERAL LIVESTOCK PROTECTION:

Peradox™ may be used at dilution rates of between 1:100 and 1:200 in cold water according to specific pathogens involved, as well as level of residual soiling encountered at the point of use.

#### POULTRY PROTECTION:

Use between flocks, for sanitising the drinking water system. Use at a dilution of 1:50 and allow to soak for 4-6 hours. Rinse the system thoroughly with potable water.

#### CLUSTER DIPPING:

Use at dilution rates of between 1:50 and 1:200 in cold water (according to specific pathogens involved), to kill mastitis causing bacteria.

#### IN-PLACE DISINFECTION OF PROCESSING PLANTS:

For the disinfection of processing plants in the food and beverage industries, circulate at a dilution rate of 1:200 following effective cleaning using a suitable detergent.

Peradox™ may also be used at a dilution rate of 1:200 as a combined detergent disinfectant for removal of protein films from milking machines.

#### FOR CORONAVIRUS:

Clean surfaces with detergent prior to disinfection.

Dilute 15 ml per 5 L water (1:333). Apply to surface with a clean cloth or mop and leave for 5 minutes. Rinse with potable water and allow to air dry.

Pack: 1000 kg (1064 kg)  
Each

#### PRODUCT INFORMATION:

Appearance: Clear colourless liquid  
Odour: Pungent acetic acid  
pH - undiluted: 1.0  
Shelf life: 1 year

COMPOSITION: Contains a blend of peracetic acid, hydrogen peroxide and acetic acid.

BIODEGRADABILITY: All surfactants used in Evans Vanodine products comply with the current European Regulations concerning biodegradability and protection of the environment.

#### QUALITY ASSURANCE:

EVANS VANODINE INTERNATIONAL PLC operates under an ISO 9001 Quality Management System Cert. No. FM 09535 and an ISO 14001 Environmental Management System Cert. No. EMS 506072 registered by the British Standards Institution.

REVISION DATE:  
01/06/20
