Chlor Liquid

Disinfection solution

Provides a safe disinfection solution for salads, vegetables and non-peelable fruit.

Convenient and easy to use.

An efficient and cost effective way to keep wash water clean.

- Suitable for use in kitchens and food preparation areas.
- Safe disinfection for food preparation.
- Effective against coronavirus at 1,000 ppm.

DISINFECTION OF SALADS, VEGETABLES & NON-PEELABLE FRUITS:

- I. Rinse in cold water to thoroughly remove loose soil and insects.
- 2. Prepare disinfection solution, at a rate of 25ml per 20 litres of water.
- 3. Completely submerge the salad etc in the solution for 5 minutes.
- 4. After disinfection, salad should be removed, excess water shaken off, then transferred to a clean, dry tray before storing in a suitable area.
- 5. It is preferable not to rinse after disinfection, except where food will be consumed in less than 2 hours, in which case rinse with clean fresh drinking water.

FOR HARD SURFACES:

For Coronavirus, dilute 1:50 parts water (20ml per 1lt of water) for 1,000 ppm. Clean surfaces with detergent prior to disinfection.

Apply solution with a sponge or mop, wetting all surfaces thoroughly. Leave for 5 minutes, then wipe away excess with a clean cloth.
