

# Visqodip™

0.535% w/v ready-to-use teat dip solution

Ready-to-use thickened iodophor teat dip which is an effective aid in the control of mastitis.

UK Authorised Veterinary Medicine.

Leaves a highly visible & long lasting antiseptic film of Iodine on the teats after dipping.

- Should be used all year round & especially at times when teat condition is compromised.
- Contains 8.5% w/v Glycerol & 0.5% w/v Sorbitol to help keep teats soft & supple.
- Helps maintain good teat condition & aids in the prevention & healing of sores & cracks.

#### TEAT DIPPING:

Fill teat cup about two thirds full with Visqodip™ 0.535% w/v ready-to use teat dip solution. Dip teats of every cow immediately after each has been milked, making sure that the full length of the teat is immersed.

Top up with fresh solution as required.

Empty and wash out cups after milking.

Dry teats before milking.

Not suitable for spraying due to viscous nature of the formulation.
